OBJECTIVE

Creative Designer and Director seeking to work at **Motion Graphics / Interactive / Film** company, with heavy emphasis on creative work in film and video. Recent work includes filmmaking site Massify <http://www.massify.com> and music video: <http://www.lumivideo.com>

EXPERIENCE

Interactive Designer / Design Technologist

Oct 07 – present

Massify, New York, NY

Involved in all aspects of creative and development for next-generation filmmaking startup

- Conceptualized / implemented feature sets and design for landing pages and site-wide modules
- Created banner advertisements and edited promotional trailers for partnerships with **After Dark Films** and other high-profile film companies
- Worked on IA/UX wireframes for major site sections and functionality.
- Created comps and mockups for pitches to gain new business

Director / Editor

Jul 06 – present

Various Motion Graphics companies and clients

Animation, Editing, and Directing various music videos, commercials, and spec spots

- Shot, produced, directed, edited, and produced music videos for clients in United States and Europe, as well as design boutique EyeballNYC.
- Developed syndication deal with Swedsh-based r.fm, for a partnership on Joost (www.joost.com)

Co-Founder

Dec 06 – June 07

Jive Media, Inc., Newport Beach, CA

Involved in building creative, marketing, and strategic development for early-stage startup

- Wrote early stage business plans/models for Social Networking Site

Freelance Interactive Designer / Editor / Director / Creative Tour-de-Force

Mar 06 – present

*I created both Flash and (X)HTML websites, identity packages, and music videos from the ground up for clients in the real estate, arts & entertainment industries Agencies completed work for include: **VIXIOM, LAMBESIS, CREATIVE CIRCLE,***

MyMOVI, EYEBALLNYC, and ANT FARM

*Created banner ads for high-level clients such as **SKYY VODKA, BEBE, HITACHI***

- Designed websites using current W3C-recommended standards
- Managed process of design through brainstorming, design compositions, and cut-ups
- Utilized Flash Remoting, fCMS (Flash Content Management System), and Actionscript 1.0 and 2.0 to create Rich Internet Experiences.
- Directed and assisted in production and editing of commercials and music videos

Teaching Assistant / Instructor of Record

Sep 03 – Dec 05

University of California, San Diego, California

I was the Teaching Assistant for Introduction to Video, Digital Imaging, and Introduction to Programming in the Arts

- Constructed lesson plans and lectures relevant to the weekly topic
- Taught the use of Director, Lingo, Photoshop, iMovie, and HTML for creating original digital art
- Graded papers on a variety of topics;
- Advised and motivated students through weekly Office Hours

Web Assistant

Jul 04 – Dec 05

California Institute for Telecommunications and Information Technology, San Diego, CA

Calit2 is a new institute at UCSD that employs a wide variety of scientists and researchers engaged in fields such as bio/nano technology, grid computing, electrical engineering, and New Media Art.

- Designed and developed an institute-wide website utilizing PHP MySQL (X)HTML and CSS

- Conceptualized and programmed Information Visualizations for Calit2-affiliated researchers
- Worked as part of a team to maintain and update Calit2-related websites
- Developed original Flash animations and demonstrated at poster sessions

Animator / Editor / Designer

Mar 02 – July 03

Various Companies (CIRCA Music, V2 Labs, Pheasant Eye Productions), Los Angeles, CA

During the period after graduating from Syracuse University, I weathered a tough job market by piecing together numerous freelance jobs. These included animation, editing, and websites.

- Designed Flash animations for broadcast-quality DVD distribution
- Edited videos for EPKs (Electronic Press Kits) and Documentary
